

pH and temperature sensor

pH sensor with temperature sensor

Article-No.

461 5000 (flow through)

461 5100 (dip version; without picture)

Properties and performance

- pH-sensor working with ISFET (Ion selective field effect transistor)-principle
- robust ceramics diaphragm
- calibration 1 times a week to 1 times a month
(depending on application)
- regeneration of electrodes after 12 to 18 operation time
(depending on application)
- protection class IP67

Applications (exemplary)

- process control (z.B. food and chemical Industry)
- water monitoring
- wastewater control

Technical data

measured variable	PH	Temperatur
principle	ISFET	NTC
measuring range	pH 1 ... 14	-2°C ... +90 °C
accuracy	pH 0.1	0.9 °C
resolution	pH 0.1	0.1 °C
interval	1 s	1 s
range of temperature		0 °C...+110 °C
weight		0.23 kg
connection	3/4`` NPT screw thread; 11-Pin Vario Pin	
dimensions	see technical drawing on the back side
